Mass Methods in Schools
Kills Personal Element

Smooth operation of the big educational machine rather than the training of the individual is the effect of modern school procedure. Times have changed since education was a purely personal affair and instruction was limited to the three Rs. We now have compulsory education and attendance, and compulsory support of schools. The public provides excellent buildings that ensure healthful conditions for children, those who teach have well mastered the material to be taught and they are well schooled in the art of child training. The system has become a rather huge and perfected machine designed and developed to provide free education of the same type for ALL.

But this making a machine of the educational system has had the unfortunate effect of taking much of the personal element. We have fixed ages for admission, unvarying subject matter, uniform text-books and assignments of work; inflexible methods of instruction and routine work in which all must fit. Have been passed down as professional folk lore. Formal educational processes begin with young children, and because of mass methods, the teacher and the schools turn out a uniform product—boys and girls who can answer given questions in stereotyped fashion with standardized degrees of speed and accuracy. This uniformity of product would not be found if it were possible to develop each child's possibilities.

No two pupils are alike and recent experiments and investigations have brought home to the general teaching body a fuller understanding of the great contrast between pupils even of the same age and grade. Although of course, experienced teachers have recognized differences in pupils and endeavored to meet the situations in the classroom, little has yet been done to grapple with the important problem of protecting pupils from the evils of mass methods of production.

Teachers themselves, as teachers, being part of the machine, suffer more perhaps from timidity and lack of initiative, than from inability to follow the established routine. There is always much in the old worth retaining and innovations are not to be cherished solely because they are novel, therefore, before putting into general use any new scheme or changing the old, it should be carefully surveyed to make sure that the problem of getting back to the individual is fully understood and the solution is safe and practical. Research and experimentation aiming to provide due measure of individual instruction into the school system should be encouraged in order that the right antidote may be discovered to the evils arising from MASS PRODUCTION.

Curriers meet to-night to elect skips, appoint a caretaker for the season and make all preliminary arrangements for the coming season.

At a meeting of the executive held last week, it was decided to wire the building, and have same connected with the town lighting plant. Mr. S. E. Trewin was awarded the contract to prepare the ice.

Hunting Party Ends With Fatality

A sad accident occurred on Monday November 19, when Walter Hartsock a young man well-known in the Oyen and Benton communities was accidentally fatally shot while hunting near Alesak, Sask. The funeral service was held in Oyen United Church on November 21, at 1 p.m. Rev. H. C. Woods officiated, assisted by Miss L. Wolff, pastor of the M. B. C. Church in the Acadia Valley district.

A large number of friends and neighbors attended the funeral. The pall bearers were chosen from among friends and neighbors, Mr. Hartsock's young men with whom he had been associated most of his life, Messrs. Homer, Alvin and Raymond Kerns, W. Smale, T. Diemert and K. Anderson.

Mr. Hartsock was born in Gifford, Ill., on December 21, 1905, and came to Benton, Alberta in 1913. He leaves to mourn, his mother and step-father, three brothers and one sister, as well as a number of other relatives and numerous friends.

The annual meeting of the lodges of Masonic District No. 11, was held in Drumheller last Monday. Those who attended from Oyen Lodge, No. 104, were: Mr. A. M. McQuarrie, Mr. Charles Stewart, Mr. Donald McKay, Mr. C. L. Dunford, Mr. J. B. Lowe and Mr. James Marshall. Two societies were held, one in the afternoon and one in the evening, both of which were well attended. At the evening session Mr. Charles Stewart was elected District Deputy Grand Master for District No. 11.

The Family Herald and Weekly Star of Montreal with its wonderful improvements has no peer as an agricultural paper on this Continent. The best Canadian farmers know that.

TO BROADEN BASE AND MAKE FOR BRITISH UNITY

Toronto.—Premier Macdonald King declared in the address here that his administration entered the diplomatic field not only to assume responsibility for Canada's external affairs, but also because it believed that consultation and co-operation with British ambassadors abroad would serve to broaden the base and secure more fully the foundation upon which British Empire government rested, and make for British unity and its permanency, as well as world peace.

The prime minister was speaking at a banquet tendered him by the Toronto Board of Trade at which he summarized the reasons which led his administration to open legations abroad. It was a lengthy speech on "means and development in Canada's external relations," and in the course of the address the appointments which have been made at Washington and Paris, and the audience that he "hoped there would be an exchange of ministers between Ottawa and Tokyo shortly."

"The symbol of British unity is to be found in the British crown," Premier King said in concluding his address. "The security of the Empire rests on a Throne which is based upon the people's will. Whatever may serve to broaden the base, and thereby to secure stability of the foundation upon which all government throughout the British Empire rests, is making for the permanency of its permanency. It is making as well, I believe, for the peace of the world."

"It is in this belief, at least, that the present administration has sought at Washington, at Paris, and at Tokyo, not only to assume responsibility for all that pertains to the immediate interests of Canada, but by consultation and co-operation of her representatives with the British ambassadors at these capitals, to bring to bear as regards the British Empire, a united opinion with respect to all matters that may be of mutual concern."

Fishermen Are Rescued

Six Lake Manitoba fishermen marooned on island brought safely to shore.

Winnipeg.—After hours of struggle to free themselves from the ice, six fishermen reached at Lake Manitoba fishermen who had been marooned on a barren island, three miles from shore.

Two fellow-fishermen, A. M. Freeman, and his son, George, of Dog Creek, a little fishing village on the eastern shores of Lake Manitoba, about 150 miles from Winnipeg, were the rescuers. After two attempts had been made to free the island—Gull Island—on the third, and then, with the rescued safely placed in the boat, the two men, fought their way back to the mainland through the treacherous ice floes and gale-swept water.

The rescued men are: Frank Farnham; his son, Victor; Arthur Ashman, Fred Cooper, Rutherford Elkes and Joe Lepton.

Make Preparations For Closing Off Navigation

Ship Owners Ask For Final Sailings On Great Lakes

Ottawa.—In preparation for the close of navigation all ship owners have been urged by the department of marine to advise when their last vessels will leave the Great Lakes. Failing an agreement between United States authorities and owners across the border, the department has been unable to arrange for navigation to close on December 7 as was hoped.

All Canadian lights and fog alarms on Lake Superior will be kept in operation until the close of navigation, with the exception of Caribou Island which may close on December 8 and be replaced by an unwatched flashing gas light; Otter Head, Davison Island, Quebec Harbor and Michipicoten Island, East End, which may close on December 12, and Ile Parisis which may close on December 15.

May Serve On Commission
London.—It is definitely settled that the United States shall be invited to serve on the new regulations commission and also that the commission should draw up a scheme for expediting and commercializing Germany's reparations liabilities so that bonds can be sold to private investors.

Announce Delegates To Air Conference

Winnipeg Postmaster Will Be Member Of Canadian Party

Ottawa.—That Announcement has been made here that D. J. Desbarats, deputy minister of aviation, will head the Canadian delegation which will attend the international conference of civil aeronautics to be held in Washington, D.C., December 12 to 14, inclusive.

Accompanying Mr. Desbarats will be P. T. Coolican, assistant postmaster-general, J. A. Wilson, controller of civil aviation; T. D. Bower, Vancouver; The Winnipeg, Man.; and Wing Commanders J. L. Gordon and E. W. Stedman, of the Royal Canadian Air Force. A number of other directly interested in aviation are expected to join the delegation.

Orville Wright, of Dayton, Ohio, has been designated as the guest of honor at the international gathering in recognition of his successful pioneering in aviation, while a number of outstanding figures in the field of aviation are expected from the British Isles.

Wellington, N.Z.—H. R. Dix, representing the New Zealand Air Club, and Captain N. H. Barlow, of the New Zealand Air Force, sailed for Vancouver, B.C., Saturday, to attend a conference which opens in New Zealand at the international aeronautical conference which opens in Washington, December 12.

Grain Elevator For Churchill Terminus

Will Have 1,125,000 Bushels Capacity According To Plans

Port Arthur, Ont.—The C. D. Howe company, of Port Arthur, has been designated to prepare plans for a terminal grain elevator of 1,125,000 bushels capacity to be erected at the Churchill terminus of the Hudson Bay Railway.

It was stated at the Howe company offices that while a start has been made on the proposed elevator is to be after the same general plan as the terminal elevator at Port Arthur and Port William, with possible modifications regarding the facilities for loading ocean vessels.

It will depend upon local conditions relative to exact location of the plant and whether this water will be considered, the information concerning this has yet to be obtained.

It was also stated at the Howe company offices here that the information had been received concerning plans for a Hudson's Bay elevator for the wheat pool. C. D. Howe is now the Port Arthur and may have some correspondence in this connection, but that is considered highly probable here.

To Raise Farming Profession

Herman Trelle Thinks Farmer Should Be On Level Of Other Professions

Toronto.—"If there is anything I can do in the way of taking the hayseed out of farming, I'm going to do it," Herman Trelle, the world's wheat champion, said today when he was asked to raise the wheat farmer's status and to bring him up to the level of the other professions. "Why shouldn't the farmer be an educated, cultured man, the same as those who follow any other profession?"

In 1926 Mr. Trelle produced 15,000 bushels of entirely registered seed grain, with the whole output placed at the disposal of the Alberta government, which pays him a premium for his product.

He has won championships in virtually every province in Canada and is the holder of 21 cups. Mr. Trelle has won the world's wheat championship at the winter fair here in exhibiting wheat, oats and peas, all grown under the same conditions which produced him honors in other years.

Asked To Expedit Trial

Ottawa.—Recent communication has been received from the British government asking that Canada expedite the reply regarding the placement of the arbitration treaty between the British Empire and the United States, that expired last June. It is possible such a request may have been forwarded and not yet received here.

For Churchland

Edinburgh, Scotland.—The assemblies of the Church of Scotland and the United Free Church of Scotland both voted by overwhelming majorities in favor of the union of the two churches. Final decision on the question will be made at the next assembly in May. Both churches are Presbyterian in doctrine.

Ready For Grain Probe

Commission Will Hold Hearings In Saskatchewan During December
Regina.—The Royal Grain Commission, appointed by the Saskatchewan Government, will hold sittings in various parts of the province during December to investigate the problem of grading, handling, mixing and marketing wheat.

The commission will consist of Chief Justice Brown, chairman; John A. Stoneman, president of the United Farmers of Canada, Saskatchewan section; Dean Rutherford, of the Saskatchewan College of Agriculture; W. Hedley Alder, deputy minister of agriculture; and H. F. Thomson, K.C., and W. E. Proctor, counsel for the commission.

TEST MILLING AND BAKING VALUES OF 1928 WHEAT

Regina.—Milling values of the various grades of 1928 wheat and the possibility of introducing the present test into the grading system were discussed at the annual delegates' meeting of the Saskatchewan Wheat Pool, when Dr. J. H. Richard, chemist in charge of the Board of Grain Commissioners' grain research laboratory, attended with an experimental bread baked from standards and averages of the various grades of wheat from the 1928 crop.

Dr. Richard gave his introductory comment on the report which was issued from his laboratory some time ago in which it was stated that the lower grades of wheat from the 1928 crop, most of which are heavily damaged by frost so far as physical appearance goes, are appreciably better in quality than similar grades of the 1927 crop. He read to the delegates the comments accompanying the grading and baking data in his report and was then subjected to frequent questioning.

Dr. Richard, in his statements believed that, generally speaking, frost had the effect of deteriorating the quality of the protein in wheat, but that this was not the case this year to the same extent as usual, owing to the fact that the frost came when the grain was fairly mature.

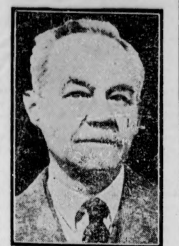

In answer to a question as to whether results from an experimental mill should be considered as fairly comparable with those to be expected from a commercial mill, Dr. Richard answered: "Absolutely, otherwise why do all commercial mills maintain chemical laboratories?"

Asked as to whether the mills use No. 6 wheat for the manufacture of flour, Dr. Richard answered that he did, and said that from his experience he would say that they were using as high as 100 per cent of No. 6. He showed, however, that there was a gradual decrease in the percentage of patent flour between One Northern and Six Northern, the actual percentage of his tests having been 63.2 per cent of the One Northern, and 60.2 per cent from the Six Norths. The British government has decreed, gradually from 64 pounds per bushel in the case of One Northern to 61 pounds in the case of No. 6 wheat.

Manitoba Liquor Protests

Winnipeg.—The Manitoba government liquor control commission realized gross profits of \$1,993,700.60 for the fiscal year ending April 30, 1928. The net profits amounted to \$1,315,172.25, according to the public accounts prepared for the provincial government.

NOTED MISSIONARY HONORED

Sir Wilfrid Grenfell, noted missionary and doctor of Labrador, who was elected rector of St. Andrew's University, in England, deferring Lord Bessborough, the former Sir Alfred Mond, by a majority of 157 votes.

Giant Fokker For West

First Tri-Motored Airplane For Use In Western Service

Winnipeg, Man.—The first tri-motored airplane for use in Winnipeg and the West will be brought here this week by W. L. Dintell, operating manager of the Western Canada Airways, Ltd.

It is a big Fokker machine similar in construction and power to the famous "Southern Cross" which caused world-wide attention when it bridged the Pacific Ocean last year. The big Fokker has a 75-foot wing spread, two feet longer than the big Ford planes brought to Manitoba for testing purposes, by Bert Hahnel and the late Floyd Bennett, only last spring. It has a capacity for 10 passengers, and if the baggage and supplies are light, for 15.

In commenting on the mail contract let to the Western Canada Airways by the Dominion government, Mr. Dintell drew attention to the fact that the service will be in operation for the three shortest flying routes in the West.

Dr. Richard, in his statements believed that, generally speaking, frost had the effect of deteriorating the quality of the protein in wheat, but that this was not the case this year to the same extent as usual, owing to the fact that the frost came when the grain was fairly mature.

In answer to a question as to whether results from an experimental mill should be considered as fairly comparable with those to be expected from a commercial mill, Dr. Richard answered: "Absolutely, otherwise why do all commercial mills maintain chemical laboratories?"

Aviator Has Narrow Escape

French Plane Falls Five Miles But Lands Safely

Vieux Couilly, France.—The French pilot, Le Moigne, attempting to break the world's altitude record, lost consciousness when his oxygen tank failed at 20,000 feet, but after nearly five miles before regaining his senses approximately 4,000 feet above the ground. He righted his plane and landed safely.

Le Moigne had been in the air one hour and ten minutes when his oxygen failed.

Draws Attention To Chain

Ottawa.—Admitting that he threw a stone through a window of Hildebrandt, the residence of the governor-general, in order to draw attention to his claims for pensions, William H. Coulter was fined \$2 and costs and ordered to pay \$2 for the repair of the window by the magistrate. Coulter said he picked out a small window as the damage would be less.

DRIVES LAST SPIKE

Believes U.S. Election Verdict For Prohibition

May Mean Showdown With Canada Over Liquor Exports, Says Official

Detroit, Mich.—One of the highest prohibition enforcement officers in the United States, said behind a desk in a large office building here, and summarily expressed his opinion about the future of legalized rum exporting into this country.

"A country that condones and abets the exportation of liquor into neighboring states where liquor is prohibited cannot honestly condemn the respect of God or man. Obviously, the presidential verdict can be interpreted also as an overwhelming verdict for prohibition, and a showdown with Canada naturally can be expected," he said.

Saskatchewan Legislature

Announcement Officially Made That Sessions Will Open Dec. 4

Regina.—Left-Governor Newlands will officially open the fourth session of the Sixth Saskatchewan Legislative Assembly at 3 o'clock Tuesday afternoon, December 4.

Premier J. G. Gardiner has officially announced.

The debate on the address in reply to the speech from the throne will open on Thursday, December 6. The honor of launching the debate this time will fall upon Chas. F. Intosh, M.L.A. for Kinistota, who will move the address, while Dr. J. T. Waugh, the newly-elected member for the Arma River constituency, will be the seconder in a maiden speech.

HERMAN TRELLE IS WINNER AT TORONTO FAIR

Toronto.—Herman Trelle, of Winnipeg, Peace River district, was awarded the world's wheat championship at the Toronto fair.

He won the world's wheat championship by growing a single bushel of wheat at the Royal Victoria Hotel.

Winnipeg, Ont. won first and fifth on Durum wheat. Dr. Brockington, of Melville, was first, and Air Wood, of Regina, was fifth.

Winnipeg, Ont. won first and fifth on Durum wheat. Dr. Brockington, of Melville, was first, and Air Wood, of Regina, was fifth.

MAN ENTRIES FROM WEST IN CHICAGO SHOW

Chicago, Ill.—The shagwags of the eastern provinces and the horse and cattle breeders of the West will unite this year in a determined drive to win for Canada the major share of the blue ribbon and lavender honors in the International Live Stock Exposition, which opens at the Union Stock Yards here, December 1. The exposition, opening officially on Saturday afternoon, will get under way in earnest on Monday, when the judging in the cattle classes begins. Judging will continue until the end of the show, December 8.

In past years, a hay and grain show, with exhibitors from all parts of the United States and Canada, will be held in connection with the Exposition, which show horses will compete in each evening during the week in the pavilion which serves as judging quarters for the livestock entries.

The provinces of Alberta and Saskatchewan are heavily represented, their entries being entirely in the cattle show building.

In the sheep division Ontario breeders are owners of more than one-third of the entries.

The Clydesdale classes in the horse division have in the past been the pride of Western Canada's greater breeders, and many of the year promise many ribbons for the Dominion's animals again. There are twelve Clydesdale classes, the largest of these is that of J. E. Falconer, of Gorman, Sask., who is sending five of his horses to the show.

The provincial farms of Edmonton are sending three, and Thos. McMillan, of Okotoks, Alberta, and Murray, of the University of Carleton Place, are exhibiting two each.

In the Percheron classes two Sask. breeders make up the Canadian entry. C. M. Reay, of Regina, has ordered stall space for five of his animals, and Robert Weiss, of Weyburn, Sask., is shipping three. Reay is also sending a single Belgian stallion to the show to compete against the 17 entries in this class from the U.S.

The western and eastern provinces have a total of 17 entries in the cattle division.

Some of the entries from the U.S. are: J. G. Morrison, of Lacrosse, has a breeding stallion, and J. G. Morrison, of Lacrosse, has a breeding stallion, and J. G. Morrison, of Lacrosse, has a breeding stallion.

The University of Alberta and the University of Minnesota are both exhibiting two fat Aberdeen-Angus each.

About Town and Country

John F. Miller Sight Specialist of 104 Underwood Block Calgary will be at the Hotel in Oyen on Saturday, December 1. Don't forget the date.

The ladies of All Saints Guild will hold their annual Bazaar, and sale of home cooking, farm produce, afternoon tea, novelties etc., at Snyder's Garage on Saturday, December 1. Commencing at 2:30 p.m.

It is the intention of Mr. Maynard J. Davies to form an amateur dramatic society. Anyone desirous of joining is asked to communicate with him.

Hockey enthusiasts are asked to attend a meeting to be held next Wednesday (December 5) in the Bank of Toronto chambers at 8 o'clock p.m.

Messrs F. C. Bliss, E. McArthur and I. L. Hay, were in Calgary last Monday attending a session of the Supreme Court, as witnesses.

The dance given in Oyen Theatre last Monday for which Les Crane and his Canadians played the music, was attended by a large crowd.

In farm papers the Family Herald and Weekly Star, Montreal, leads them all. One dollar a year or three years for \$2, and with it a superb magazine free.

Mr. R. P. Hall, one of the two delegates representing the municipal district of Acadia, at the annual convention held in Calgary last week, returned to the district last Saturday. Mr. J. Frey, the other delegate, remained in the city to attend the Pool convention.

Mr. F. C. McClean is building a new law office to the east of the Red Sentry Garage. The construction of same, which is nearing completion, is being carried on by A. B. Heath.

Mr. W. V. Miller left yesterday on a business trip to Calgary and is expected home tomorrow.

Mr. B. C. Long of Carlyle, Sask., is visiting at the home of Mr. and Mrs. Joe Long.

Trans-Canada Highway

A branch of the Inter-Provincial Good Roads Association was organized in Alaska last week, following a luncheon held under the auspices of the Alaska Board of Trade, at which Capt. S. N. Dancy was the chief speaker.

Mr. A. F. Denton of Alaska was chosen as president, Mr. T. M. McKewen of Kindersley, 1st vice-president, Mr. Andrew Anderson of Alaska, 2nd vice-president, and Mr. G. E. Tracey of Alaska, secretary-treasurer. The executive will be made up of delegates to be named by the Boards of Trade in the communities within the zone of the association from Rosetown to Drumheller.

It is the aim of the organization to get the trans-Canada highway routed from Moose Jaw through Rosetown, Kindersley, Alaska, Oyen and west to Calgary.

Bright Boy—"Daddy, did Mr. Edison make the first talking machine?"

Dad—"No, my son, God made the first talking machine, but Edison made the first one that could be shut off."

The Ladies aid of the United Church will hold a bazaar, sale of home cooking etc., in Snyder's Garage, Oyen, on Saturday, December 8. Don't forget the date.

Mr. G. H. Mehl, and Mr. F. W. Nichol represented the municipal district of Cereal at the annual convention of Alberta Municipal Districts, held in Calgary, last week.

The latest report from Calgary re Arthur Anderson is that he is making satisfactory progress and it is quite likely that he will be soon returning to Oyen.

Oyen's fall chauteauqua, held last week, went over the top in record style for an attendance is concerned. After paying the hall rent, and the guarantee, the committee were left with a small surplus which was augmented by proceeds from the sale of reserved seats and their share of the dance given after the last evening's performance. This and last year's chauteauqua's are the only two which have shown a balance in favor of the guarantors. A contract was signed for next fall.

NOTICE

Notice to Relatives of Persons on the Assessment Roll and to Tenants

Notice is hereby given that during the months of October and November, applications may be made under the provisions of Section 168 of The Village Act for inclusion in the voters list of the Village of Oyen.

The wife, husband, father and mother and every son and daughter of any person whose name appears upon the assessment roll are entitled to be placed upon the said list.

(a) If he or she is resident with the said person within the Village or assists him in a business in respect of which he is taxable; and

(b) If he or she is of the full age of twenty-one years; and

(c) If his or her name does not already appear on the roll; and

(d) If he or she duly makes application in accordance with this notice. All tenants who have rented an assessed parcel for a period of twelve months immediately preceding the last day of September of this year and who duly make application during the months of October and November, are entitled to be placed upon the said list.

For this purpose the office of the Secretary-Treasurer will be open during the usual office hours every day in the month which is not a legal holiday.

F. C. Bliss, Secretary-Treasurer

CANADIAN NATIONAL RAILWAYS

THIS WINTER—

Make a visit with your relatives and friends. They will want to see you and know how you have prospered in this fair land.

OUR Low FARES

make it easy for you to get away—just make up your mind you're going, and the local agent of the Canadian National will arrange all details of the trip.

Canadian National through trains pass through a territory replete with scenic grandeur, of historical and educational value to the traveller. On its trains will be found companions jolly and likeable—an infectious air of friendliness and goodwill. There is nothing superior to the Canadian National shopping and dining car service. Radio-receiving service is an added feature on the through trains.

Full particulars gladly given by any Canadian National Agent, or write
J. MADILL, District Passenger Agent, Edmonton
